QUINTPROS

YOU THINK, WE MAKE

We are a team rather than an IT agency. We have small efficient team with core goal of project success. Our team comprises of experts from designing, teaching, development and consultancy.

Our mission is to become an asset to our customers by securing them with completion and provide post completion services.

WHAT PEOPLE SAY ABOUT US?

Prof. Dr. Nanda Bahadur Singh Vice-Chancellor Mid-West University, Nepal

"Quintpros Technology Solutions developed the ERPS, EMIS, LMS system for our Mid-West University, transforming it into Nepal's first digital university. Their cutting-edge technology and comprehensive approach streamlined our administrative processes, enhanced academic management, and provided a seamless digital experience for students and staff alike."

Senior Project Manager, Westpac, Australia **Manoj Kumar**

"Quintpros Technology Solutions delivered innovative EduTech and secure banking solutions that revolutionized our operations, enhanced user engagement, and streamlined our financial processes with exceptional professionalism and support."

Shambhu Adhikari VP, Takeo AI, USA

"Quintpros searched for Python and React team in no time and helped us to complete our bootcamp at dire situation, happy to recommend them. Adept on working in American time."

CIO, RV Matrix, Canada **Anantha Karthik**

"Quintpros Technology Solutions provided us with exceptional resources for JAVA, React and Python to RV Matrix, significantly boosting our project efficiency and performance.

Just think of the IT Solutions you need and we are there for you. We are your end to end solution service company for web development, website development, mobile apps development, software development, project management, strategy development, documentation, animation, digital marketing and anything related to Information Technology.

EGDOCS

A DOCUMENT MANAGEMENT SYSTEM

" Everything related to Documents "

EGDOCS, developed by Quintpros, is a cutting-edge document management system designed to streamline all aspects of document handling. The platform facilitates a seamless flow of documents, starting from creation and draft management, progressing through review and approval processes, and culminating in secure storage and retrieval. The most unique feature of this system is publishing. You can publish the document within department, in the system or to the internet.

EGDOCS stands out with its integration of artificial intelligence, providing enhanced automation and smart insights to optimize document workflows. The system ensures data security and compliance while enabling seamless collaboration and accessibility. With its vision of incorporating AI, EGDOCS revolutionizes traditional document management, offering a futuristic approach that enhances efficiency and productivity for businesses.
